

THE MBA TOUR

Your future begins here

Peter and Alice von Loesecke Scholarship Foundation

Process for candidate evaluation:

- Applicants are eligible if they attended one of the MBA Tour events after July 2009 and have been accepted to a university they met at the event.
- Any school participating in an MBA Tour event is eligible to nominate a student for a scholarship. However, the student MUST have attended the event in which the school participated.
- Applicants must notify the university they will attend of their desire to be nominated for the scholarship by printing their scholarship ticket through The MBA Tour website and sending it to their university (Applicants Login to their MBA Tour profile and select "Request your Scholarship Ticket" <http://www.thembatour.com/entry/SignIn.jsp>).
- Applicants can only submit their ticket to ONE university and a university can only nominate ONE candidate for the scholarship.
- Once a school has identified a candidate to nominate who the school thinks best meets the scholarship criteria, the school must then submit to The Foundation the candidate's name, a resume in English, a written form (Provided by The Foundation) as to why the school believes the candidate meets the award criteria, and the scholarship ticket submitted by the student.
- To qualify for a nomination, the candidate *must be already accepted* by the school. The Foundation will consider only one candidate per school and one school per candidate. Should two or more schools nominate a candidate; The Foundation will disqualify the candidate. If a student elects to attend a school other than the one from which he or she were nominated, they will no longer be eligible for the scholarship.
- After the deadline for nominations, The Foundation will announce semi-finalist candidates who will be asked to complete an application. The Foundation will also notify candidates who were not selected as semi-finalists. The application will ask the candidate to demonstrate their qualifications and interests in the award criteria. After a review team has evaluated the applications from nominees, The Foundation will announce finalists for the scholarship. The Foundation may also ask candidates for an interview before it announces finalists. Finally, The Foundation will award the scholarship directly to the school and *may* elect to stage award payments based on the recipient's *continued demonstration of the award criteria*.
